Bible Quizzing

Lead-ins for Question Types

The purpose of the question type lead-ins is to provide three key pieces of information:

- The question number (1-20, or the tie-breaker number).
- The type of question (I, IC, IV, MA, MC, MV, F, FC, Q).
- The beginning of the actual question, including any required reference(s). This is also the point at which the quizzer can buzz in without incurring a foul (the third time the quiz master says the word "Question:" in each lead-in).

| | |
|----|--|
